

MARINE SURVIVAL TRAINING CENTER

U S COAST GUARD, OPITO AND INDUSTRY APPROVED COURSES

Comprehensive Survival Craft/Survival Suit Training

In this two-day course, participants will be able to identify the potential hazards encountered offshore and the proper actions to take. The hands-on training covers the totally enclosed survival craft, marine and aviation life rafts, personal floatation devices, survival suits, and helicopter underwater egress. This course is approved by the USCG and satisfies the requirements of 46CFR 10.301-34 for MODU licenses and table A-VI/1-1 (Personal Survival Techniques) of the Standards of Training Certification and Watchkeeping (STCW) code.

Scheduled Dates: Monday - Tuesday

Tuition: \$450 1.6 CEUs

Proficiency In Survival Craft

The purpose of this course is to train personnel in the proper actions involved in taking command of, launching, and handling of a survival craft during an emergency evacuation/abandonment. Any applicant who has successfully completed the 32-hour Proficiency in Survival Craft course will satisfy:

- a) the Survival Craft training requirements of Section A-VI/2 and Table AVI/2-1 of the STCW Code; AND the training requirements of 46 CFR 12.10-3 (a) (6) for any endorsements as Lifeboatman, provided that sea service requirements are also met; AND
- b) the survival suit and survival craft training requirements for a license as Offshore Installation Manager, Barge Supervisor or Ballast Control Officers

Scheduled Dates: Monday - Thursday

Tuition: \$700 3.2 CEUs

Helicopter Underwater Egress Training

By utilizing the Modular Egress Training Simulator (METS), participants receive the most realistic training available. This course includes personal water survival training. This course meets the requirements for operators in the Gulf of Mexico.

Scheduled Date: Friday

Tuition \$200 0.8 CEUs

\$250 with Emergency Breathing Systems (HEEDS/HABD)
